basecodelabs.com

1. Executive Summary

BaseCode Labs presents **BCL Diocese ERP** — a complete digital platform for Catholic parish administration — together with the **BCL Parish Mobile App** for parishioners, families, and clergy.

This proposal covers yearly subscription pricing, full feature scope, mobile app deliverables, onboarding, support, and terms suitable for parish council and priest approval.

The platform is already architected and deployed for the **Roman Catholic Diocese of Tura**, with **Sacred Heart Shrine Parish** as the reference implementation (*sacredheartshrinetura.in*).

- Sacramental Registers
- Parish Website CMS
- Android & iOS App
- QR Certificates
- English & Garo
- Cloud Hosted

Channel	Purpose
Web ERP	Sacramental registers, families, finance, mass scheduling, cemetery, catechism, reports
Parish Website (CMS)	Public website with news, events, gallery, mass timings, forms, hero slider
Mobile App	Parishioner engagement + priest/staff pastoral tools on phone & tablet
Cloud Hosting	Secure hosting, backups, SSL, domain support, software updates

2. About BaseCode Labs

BaseCode Labs Pvt. Ltd. builds enterprise software for institutions. The BCL Enterprise Suite includes Diocese ERP as its Catholic pastoral vertical — designed specifically for sacramental record-keeping, multi-parish diocese governance, parish websites, mobile engagement, and Indian diocese needs (English, Garo, Tamil — extensible).

3. Solution Overview

BCL PARISH DIGITAL SUITE		
Web ERP Admin portal for priest & staff	Parish Website CMS for parishioners & visitors	Mobile App Android + iOS for everyone
Single secure cloud API · api.turadiocese.in model		

User	Web ERP	Website	Mobile App
Parish Priest	✓ Full admin	✓ CMS editor	✓ Dashboard & registers
Secretary / Staff	✓ Registers & finance	✓ Content	✓ Staff modules
Family / Member	✓ Portal	✓ Public pages	✓ Certificates & prayer
Parishioner / Guest	—	✓ Mass & news	✓ Gospel & events
